*. . . our surroundings, values, and
most importantly, what
we gain from each
passing day.*

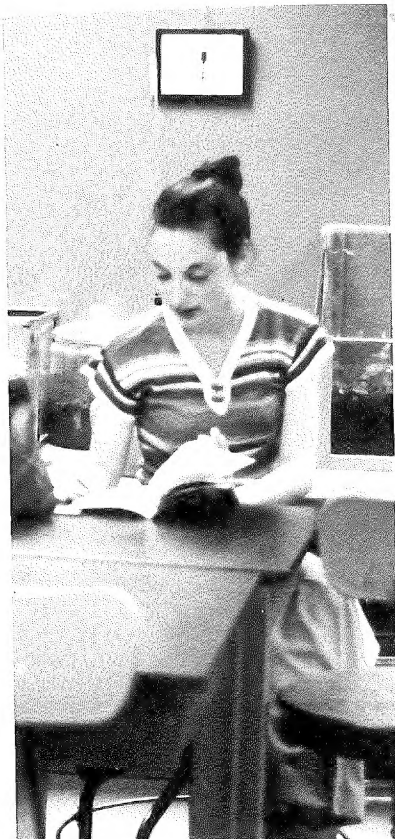

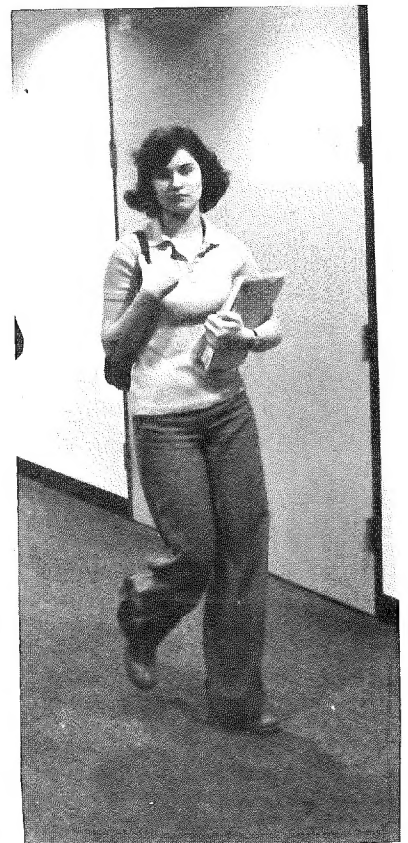

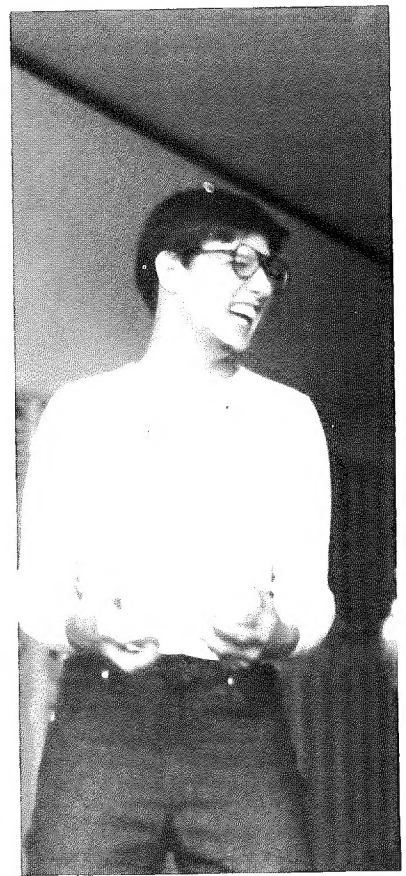

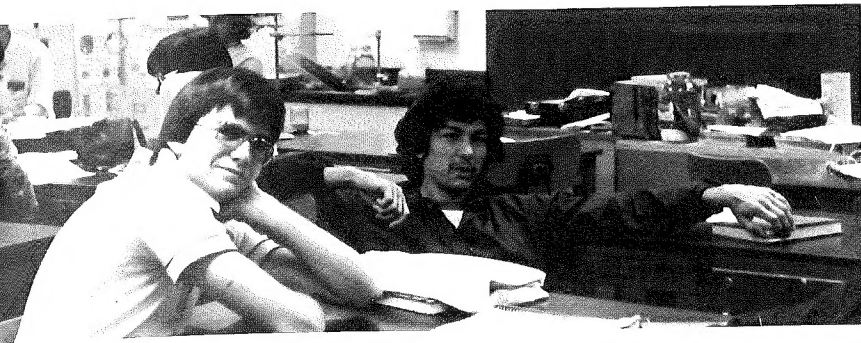

*Individually and as a
participant in the activities
of BHS, each person
develops his own values
and goals.*

*As students we learn
about life, about others,
and most of all, about
ourselves.*

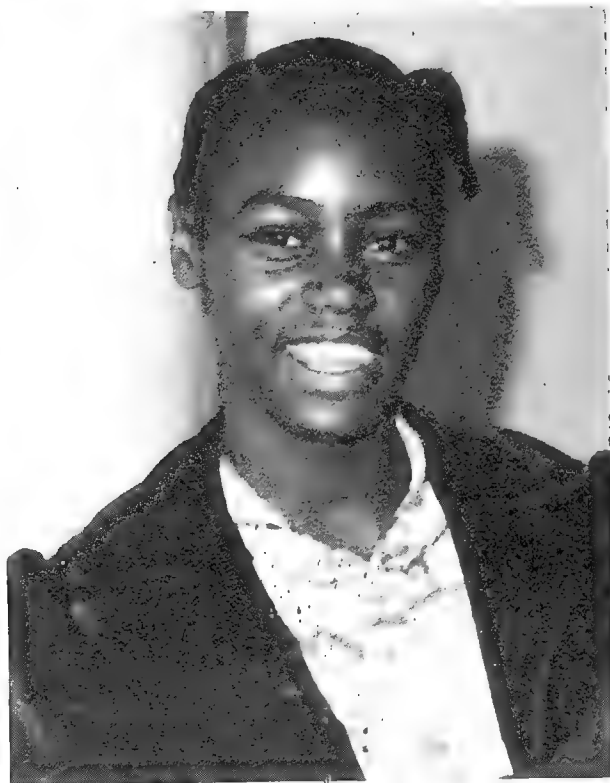

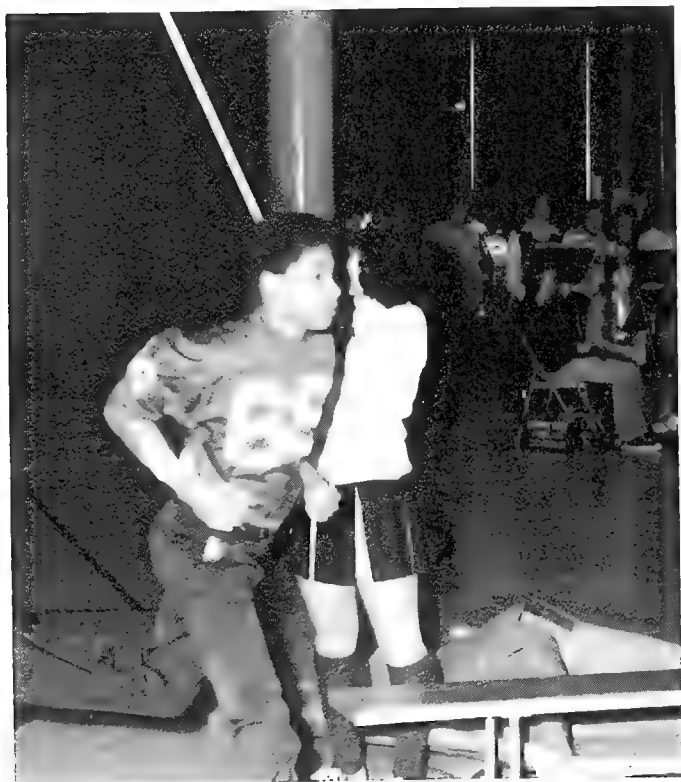

*We must keep our minds open.
Truly, we must always be
students. Ready to listen, to
learn, to comprehend.*

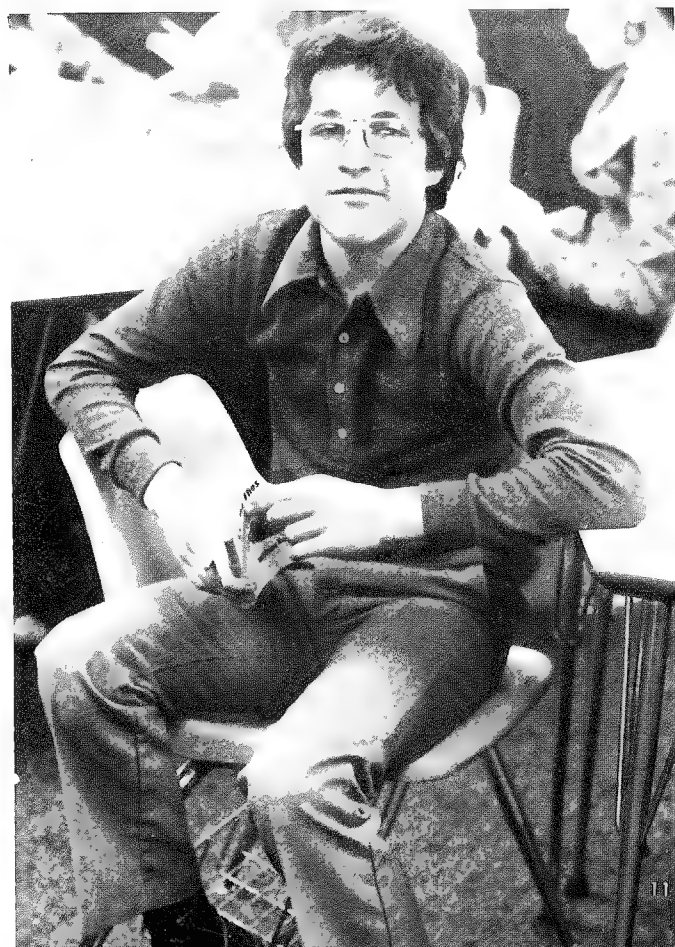

These four years at Bulkeley have helped us to adapt our ideas and cope with the problems that face our generation.

The older generation thought nothing of getting up at five every morning — and the younger generation doesn't think much of it either.

— John J. Welsh

*Working together is success.
Learning together is the
future.*

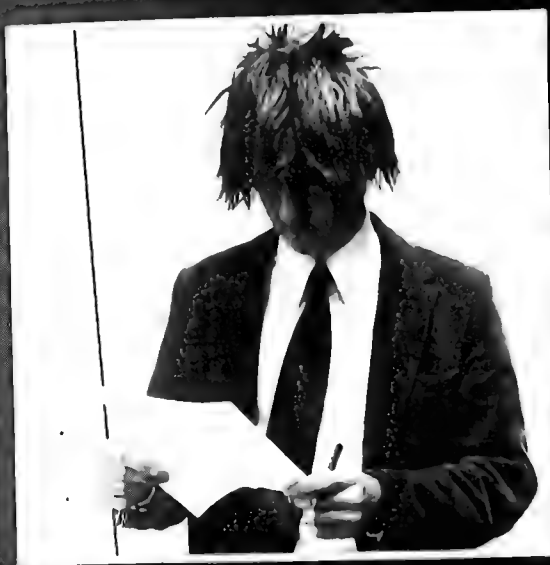

Usually, **decisions** are made by one person only. This year, the Senior Class of 1975 would like to dedicate our yearbook, magazine, and everything that helped us form and shape our lives to people like you.

...No two of us are alike.

the talent, potential, and background that we can harness has been much enhanced by all of the facilities and opportunities that were again made available to us at Wellesley. Through the past five years we were exposed to the many different nationalities and ethnic groups that make up the population of the world. The various social and economic levels that we come across through our study further demonstrate how people and their lives differ.

FACULTY

Bulkeley High School teachers constantly strive for perfection, trying to reach that unattainable height of becoming the master instructors while imparting the final wisp of knowledge from the depths of their souls. The Bulkeley High teachers never quit probing our minds for new ideas.

We learned something new every day, for

ever changing our perspectives, forever watching the distant horizon.

The most lasting impressions which students receive come through the teachers who instruct them. A teacher's fascination with his subjects becomes his student's fascination. A teacher's absorption in his work becomes his student's absorption.

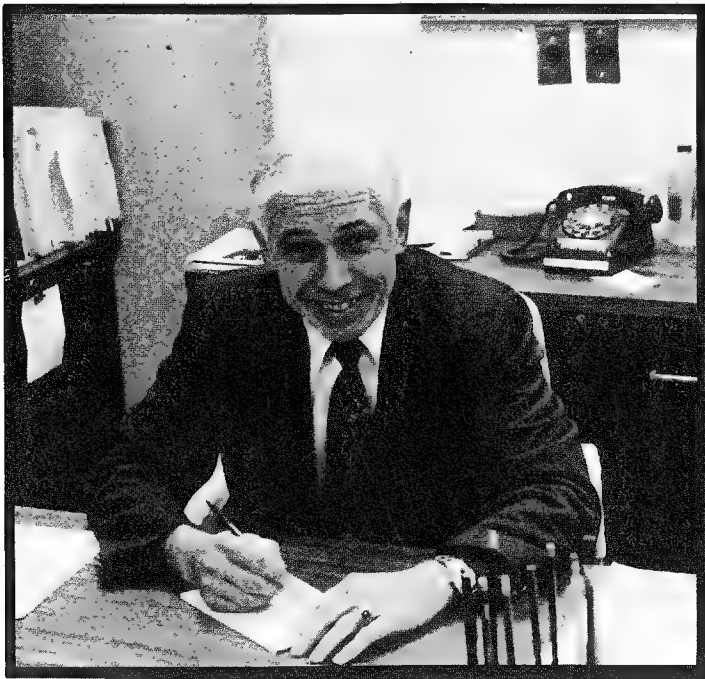

The Administration

Men and Women of understanding and character are the foundation of any educational institution. The administration sets the tone of the school, inspires a desire for learning and provides an example of self discipline and purpose.

Bulkeley High School Students are fortunate in being led by a highly trained and dedicated administration. They, guided by the Board of Education, determine school policies and establish an atmosphere where learning can be most successfully pursued.

The Guidance department exists for the benefit of the students. The department advises students in the selection of courses and, as they reach their senior year, help them choose a college or prepare for a career. Tests, designed to measure abilities and aptitudes, are administered by the counselors. By analyzing each individual's abilities and aptitudes, the counselors are able to "guide" the students.

It is obvious that we cannot begin to be citizens in a democracy if we are only partly capable of understanding our own language, if we cannot distinguish critically between truth and falsehood, between sense and nonsense, if we do not realize that language and the word are still more powerful than the atom bomb, that like a weapon it can be used for or against us.

History

ROSARIO LUCCA

Times, places, and people are the three basic elements that create history. These elements which are contemporary today, like the modern designs we see around us, will soon become part of the fading past — and then history.

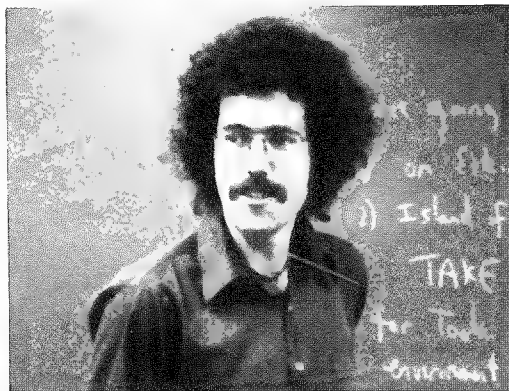

But history is not just written material in history books. History is recording, analyzing, and explaining the passing times, the changing places, and the fading people. The 1976-1977 school year will also become history. Times will pass, places will change, and people will fade from memory.

Business

Students interested in business courses find a wide variety of classes available at Bulkeley. Some of these are both practical and helpful to any high school student, while others are aimed especially toward those students who wish to continue in the business field. If practice makes perfect, we're sure on top.

Although education's ultimate goal is to produce a well rounded, well educated individual, there is more emphasis placed on producing physically fit as well as mentally alert students. Physical Education at Bulkeley High attempts to reach the high standards and goals of national physical fitness.

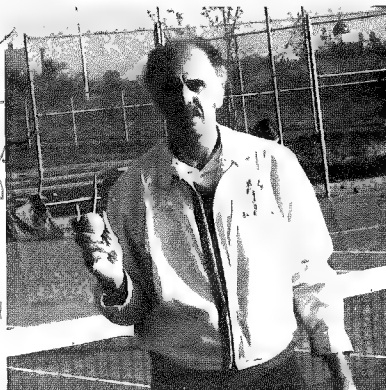

Through combined efforts of our physical education instructors, physical fitness, coordination, group living, game skills and lessons in sportsmanship are important phases in the program. Despite the time limits, classes have the

SENIORS

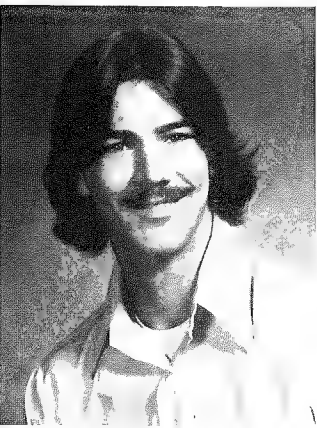

Well folks, this is it — We're Seniors now! Remember how we couldn't wait to leave! But now that our time is so near, we don't want to go quite yet. The caps and gowns can wait for a few more weeks.

Freshman year really wasn't all that long ago, even though it seems like ages. We came in so eager and expectant. As Sophomores we were still getting lost in the hallways, trying to get use to our new surroundings. This building sure seemed strange and different compared to the year before. Our Junior year was full of pride because we were finally upper-classmen. We had our own activities and especially the Prom to be nervous about.

Now as Seniors we really know what headaches are. Not only did we involve ourselves more than ever before; we did so with the knowledge that this year's projects and accomplishments would be our

last at Bulkeley. This very important year for many has been a combination of stress, fear, memories, and looking forward to the unknown? We're unsure of the future and what it holds in store for us. Some of us will continue with school, some of us will work, some us will marry and perhaps even have children of our own. We will grow older, change and live in different worlds. Isn't it so strange to think that what we've spent our time on and have tried so hard to work, will so soon be dissolved?

For the past four years we have been together and have created the Class of '77. We have loved and shared ourselves with each other and we have learned from our experiences. We have laughed and cried together in both our good times and bad. And so it is with mixed and heart rendering emotions, that we pass and take but another step into the future.

ORGANIZATIONS

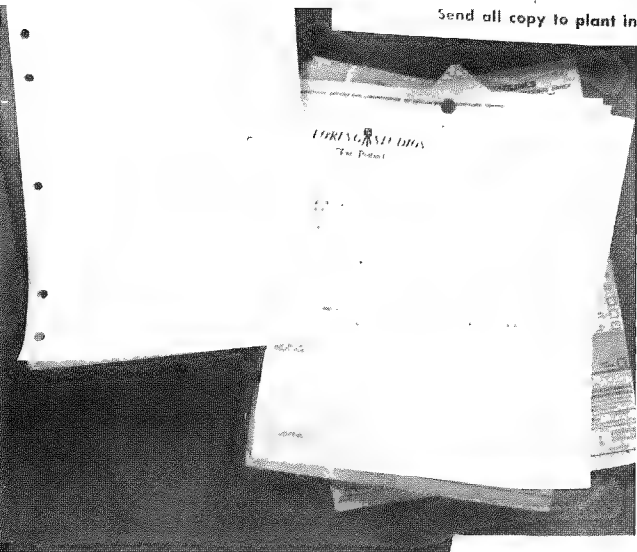

The clubs and organizations we have belonged to at Bulkeley have helped to form an essential part of our school life. Through active participation in clubs we have become more knowledgeable in our areas of interest. We've been introduced to new ideas and concepts that have broadened our perceptions of ourself, our surroundings, and our society.

We have also learned to cooperate with others, and have

learned to accept the individual differences that vary from person to person. By doing this, we have begun to extend ourselves past the barriers of ignorance and isolation. We have established relationships with each other and have worked hard together within many different groups to achieve our goals. Although we will soon be leaving Bulkeley, we will always carry with us what we have learned so as to achieve our goals and dreams of tomorrow.

MEMORIES

Our four years at Bulkeley will always be remembered. In our freshman year, it was one of just getting acquainted with the school. Our sophomore year led us to a brand new school. Our junior year was one of many memories, the disputes between the Board and the Teachers, and all of our activities. We had successful activities despite the delays that encountered us. We had pizza sales, a roller skating

party and flower sales.

As seniors, we were beginning to look forward into a world that was strange to us. In this world we would have to make our own decisions. We kept busy in our senior year attending many of the senior class's activities, such as the pool party, the dances, the movies and this all led up to our Senior Prom being a success and a joyful memory.

Party

Being a Freshman was like an insect in a cocoon, always apart from the older kids, and scared of venturing into anything new.

Being a Sophomore was like breaking that cocoon and stepping out in the midst of activity in school.

Being a Junior was like an overburdened, crawling ant, cramming in all the hard subjects and involving yourself in activities.

Being a Senior is like a butterfly, taking full advantage of its freedom and ready to fly in the unknown.

MIDNIGHT BLUE

May 21, 1976

Junior Prom

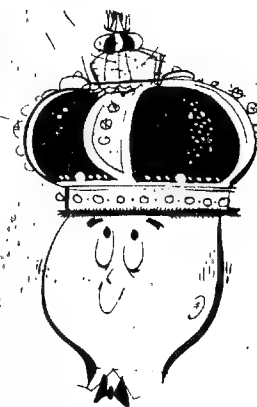

Whatever it is — it'll keep 'til morning
Haven't we both got better things to do —
Midnight blue
Even the simple things become rough
Haven't we had enough?

And I think we can make it
One more time — if we try,
One more time for all the old times,

For all of the times you told me you need me,
Needing me now is something I could use —
Midnight blue.
Wouldn't you give your hand to a friend,
Maybe it's not the end.

. . . remember all the old, old times.

Good times are made to last. At that moment when you're aware of it, they're soon over and could be forgotten.

Whether they're fun times, unique times or sad times they will always pass.

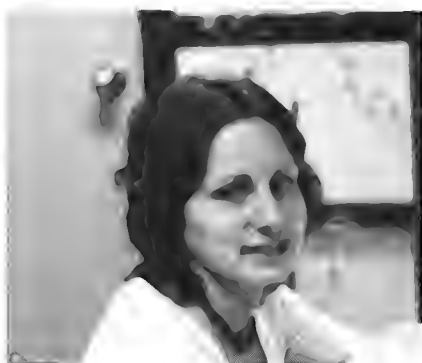

Unless they are put in to the lasting glory of a book.

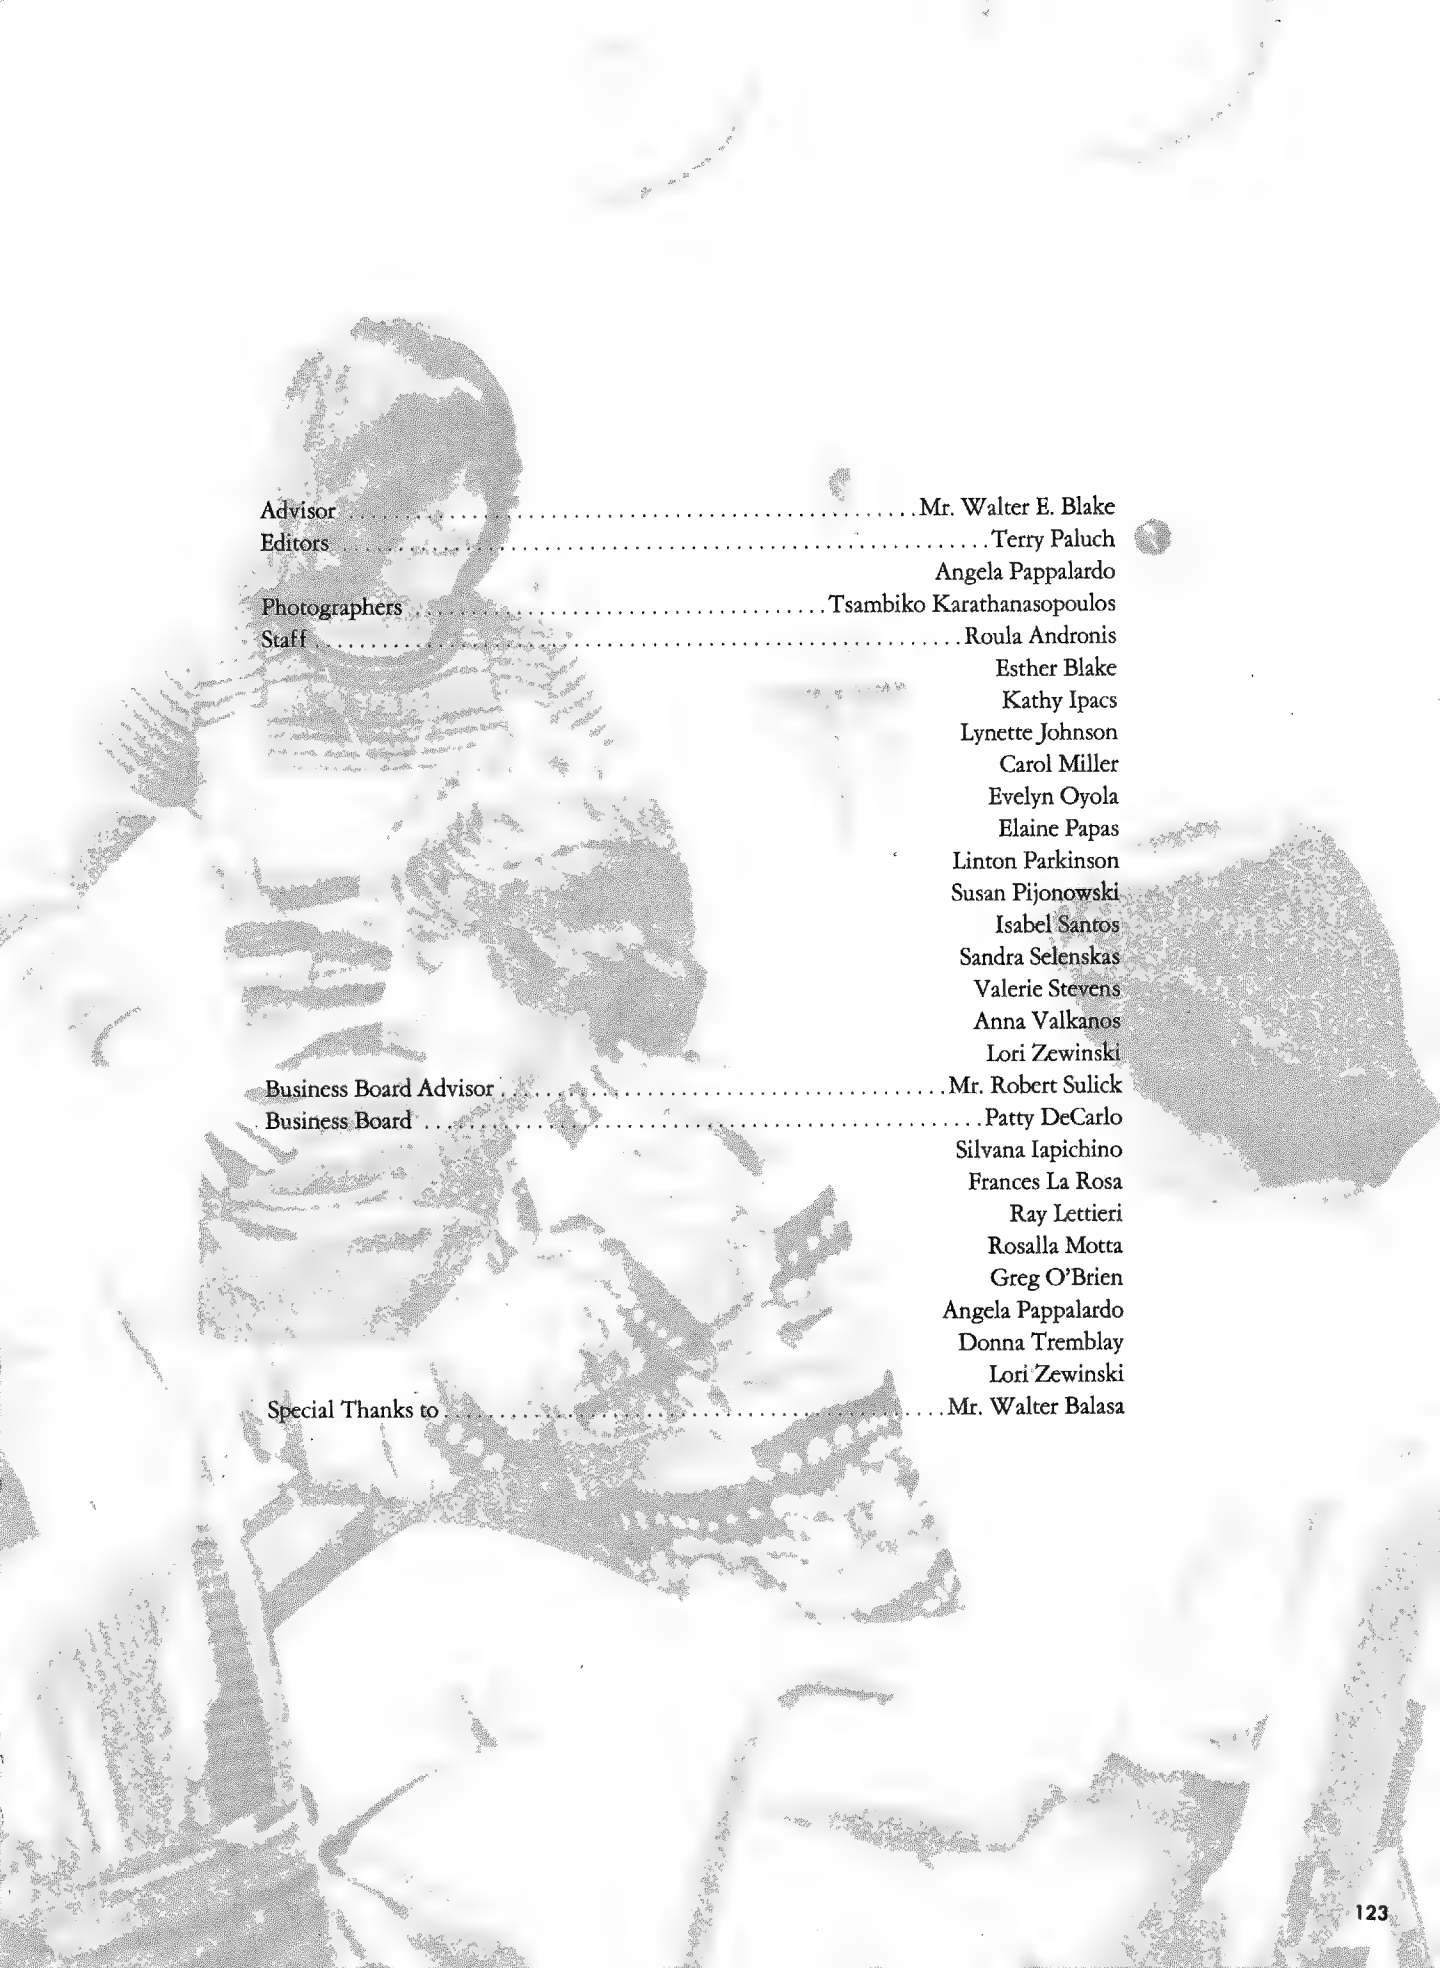

Look back and realize that in case you do forget those good times, a yearbook will never forget.

Time can stand still!

ATHLETICS

The 1976-1977 athletic season here at Bulkeley High School has been very exciting. With the Basketball Team compiling one of their best records in over a decade and the Volleyball Team having one of their most profitable seasons ever. The Wrestling and Track Teams finished with very successful seasons, many running away with special honors in the state.

This athletic season has been one of the most successful seasons in many years. The school showed tremendous spirit in supporting its athletes. The school gained much respect through the school year. Although victory was not always on our side, the effort and time spent by the athletes and coaches was well worth it.

The 1976 Girls' Tennis Team had a very successful season. A few of their accomplishments were: retaining the City Championship Title, sending six members to the State Tennis Tournament, and finishing the season with a 9-3 record.

The girls attribute their success to their hard work and determination. This season especially, the girls learned the value of team spirit and cooperation.

In the Navy, a job means more than just a good paycheck.

It means the adventure of seeing places like Greece, Spain, Hawaii and Hong Kong. It means becoming an expert on exciting technical equipment in our submarines, on our jets, and in our ships. It means doing a job that really counts, with people who count on you to do it.

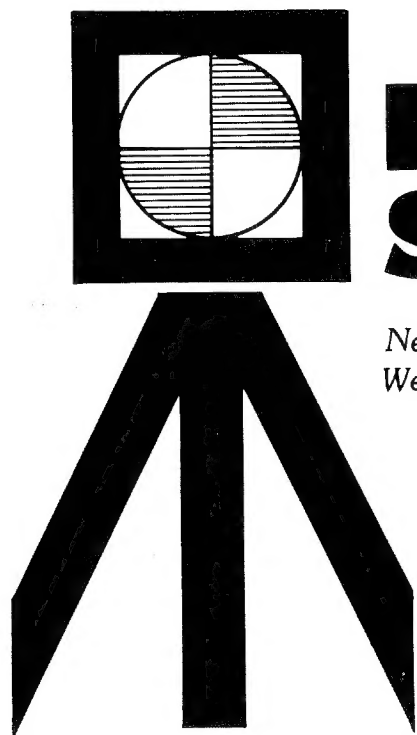

The Navy can give you training in more than 60 career fields. Talk it over with your Navy recruiter. He'll be able to tell you what you can qualify for in the Navy:
